

Autumn Term 2015 in Class 2

During the Autumn Term we were learning all about 'Ourselves' and 'Where we live'.

We wrote fabulous information texts that were full of facts about ourselves and our families. We learnt how to use some interesting describing words to make our writing even better. In Science we were learning about the Human Body. We now know different ways to keep ourselves fit and healthy. We investigated all of the activities we could complete in one minute—what can you do in one minute?

We used lots of different materials to create our portraits. We developed our sketching skills, used clay and even collected items from nature.

In P.E, we read the book 'My Daddy is a Pretzel'. We created shapes with our bodies and talked about the effect of exercise on our bodies.

Our Class Mascot Joseph has had lots of fun over the past half term. Each weekend he likes to visit one of our homes and we share our time with him. At the end of our adventures we write a diary about the fun we have shared.
