

Year 1- Autumn Term 2018

This term we became **Class 2** and moved into a new, exciting classroom. We had lots of fun exploring our new classroom and began our learning.

Our topic this term has been 'ourselves'. In **science** we learnt all about the human body. We could label the different parts of our body and could even talk about the heart.

Art is lots of fun and we have certainly enjoyed learning about Van Gogh. We painted lovely autumn pictures when learning about the different seasons.

In **RE** we learnt all about baptism. We acted out our own baptism. We were very lucky to act out our baptism in church with Father Hastie. We really enjoyed learning about the different components of a baptism.

In **numeracy** we learnt all about 2D shapes. We explored shapes by creating pictures and seeing them in our everyday life.
