

Life in
Class 2
Spring Term
2018

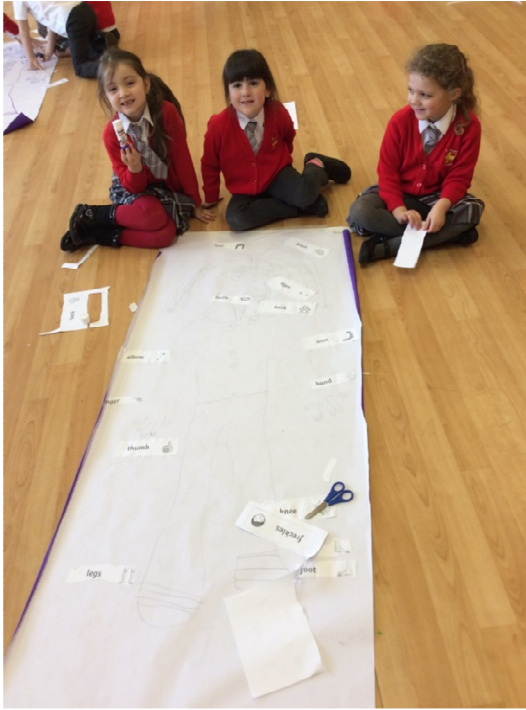

In spring our topics have been pirates and toys. We have had so much fun playing in our pirate role play area, learning about parts of our body, Peter Pan, toys from the past and much more!

In numeracy we have learnt how to measure weight, length and capacity. We especially liked making a lot of mess with the water when learning about capacity.

In literacy we gave our class dog Ruff-Ruff a birthday party! We had so much fun writing his invitations, planning his birthday and then writing all about the fun we had at his party. Even our toys had lots of fun.

In science we labelled our body parts. We drew around our friends and labelled the parts of their body. We were very good at working as a team.

We produced a fantastic assembly for the other children to watch, where we retold part of the Easter story. Miss Carlin and Miss Jones were very impressed at how well we remembered our lines.

We have worked so hard this term and produced some lovely work. World book day and our day for Easter were lots of fun. It was great to see how much effort every child put into making these days special.

We would just like to say a big thank you to everyone who contributed to our food bank. We were very proud to walk to the Salvation Army with our bags of food. They were very grateful for our donations and we enjoyed saying a prayer and reading our magazines.
