

Life in Class 2

Year 1

Spring Term

Our topic this term has been 'castles and knights' and 'pirates' we have learnt lots and had lots of fun along the way!

We had so much fun during our **Easter day**. We got to show off our bonnets during the Easter parade. In class we took part in arts and crafts activities. At the end of the day, our shared meal was very yummy!

In **numeracy** we have been learning about measurement. We have been very busy measuring weight, length and capacity. It was great to use our skills of measurement to make Easter nests.

It has been fantastic to see the children work hard both at school and at home. They have delivered some impressive homework projects.

As part of our castles and knights topic we created our own shields in **Art and DT**. First we designed them and then created them using a range of materials and paint.

For our whole school **collective worship** we told the story of 'The Last Supper'. We retold the story through **drama**, said a prayer and sang a new song.

For World Book Day we enjoyed coming to school as our favourite book character. We did a parade in assembly to have a competition for the best costume. In class, we made our own wooden spoon character. At the end of the day we listened to a story read by some of the children in Class 4.
