

Life in Class 3

Year 2

Autumn Term

2018

At the start of the Autumn Term we read the story, 'The Dot' and talked about all of the things we were good at. We created lots of different dots using paints, pens, coffee filter paper and collage materials. We used our art work to create a Kandinsky inspired tree.

We found out about the local area around our school. We used maps to locate our school and different parts of Murton. We created our own map symbols to show where different places could be found.

In **Literacy** we wrote letter home to our grown-ups which we then placed in envelopes ready to send. We had to buy a stamp from Mrs Fox with the correct money and some of us

even worked out the correct change. Afterwards we walked to the Post Office and posted our letters. I hope you enjoyed reading your letters Mams and Dads!

In **RE** one of our topics was Baptism. We re-enacted a Baptism Ceremony using what we had learnt.

In our ***Design and Technology*** work we looked at different fabrics and ways to join fabrics. We then created our own fabric face.

We have enjoyed finding out about the seven continents and five oceans. We learnt a song to teach us about them and we just can't stop singing it! We also found out about the different climates throughout the world.

We have loved using the laptops to visit websites safely to find out about Polar Animals. We used what we had found out to write fact files about our chosen polar animal.

On Christmas Dinner Day we all came in our Christmas Jumpers and donated money to 'Save the Children'. We enjoyed a delicious Christmas Meal together.

We had a Christmas Party Day with the rest of KS1 and enjoyed playing lots of party games. We had some delicious party snacks with our friends and at the end of the day we were extremely lucky to get a visit from Santa Claus!

We can't wait for an even busier Spring Term to learn so many new things!
