

Life in Class 3

Year 2 Spring Term

It has been a very busy and exciting term for all of year 2. We have thoroughly enjoyed reading and writing around our themed topics. We particularly enjoyed writing and reading about Hansel and Gretel and Charlie and the Chocolate factory. We ourselves pretended to be a character from Hansel and Gretel and wrote our adventure about going into the forest and discovering a house made from sweets! We've also written stories about spending the day in a chocolate factory. We especially enjoyed writing about all the chocolate we could eat. As we were reading the book, Charlie and the chocolate factory, we too got to design our own chocolate bars and earn a golden ticket with a chance of going to Winnie White's chocolate factory and making chocolate crispy cakes. They were delicious!

We turned our role play area into a house just like the one from Hansel and Gretel. It then became Willy Wonka's chocolate factory.

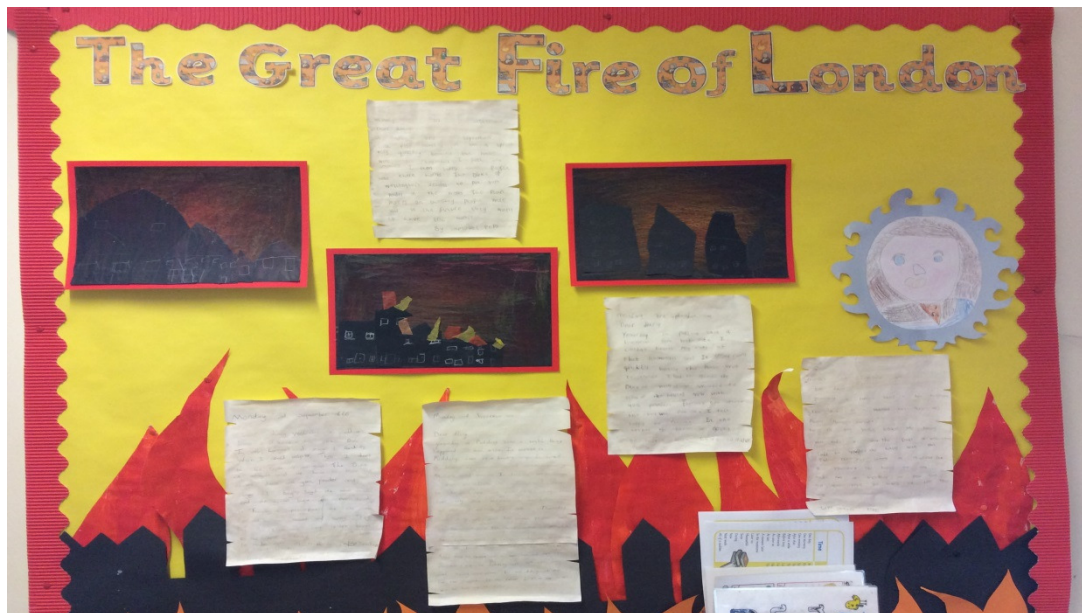

Throughout this term we have continued to be maths detectives and discovering how to solve multiplication and division calculations. In maths we have also had fun investigating different 3d shapes and learning all about fractions!

$$\frac{1}{2} \quad \frac{1}{3} \quad \frac{1}{4}$$

During the spring term we have also learnt about the Great Fire of London. We have enjoyed reading the diary of Samuel Pepys and we too travelled back in time to write our own diaries.

Throughout this busy term we've managed to get dressed up and celebrate world book day. There were some fantastic costumes and we had a lovely day sharing and reading our favourite books.
