

Autumn in Class 4

We had a busy autumn term in class 4. We covered lots of interesting topics and had a great time learning.

In September, our class had lots to do in the school garden. We weeded the vegetable beds, collected seeds and gathered some of the organic fruits and vegetables we had grown to sell to parents after school.

In literacy, as part of our Myths and Legends topic, we created our own mythical creatures and retold the story of Pandora's box. We had fun acting out the story of the Lambton Worm.

Using the Internet and books, we found out all about volcanoes. We found out how they are formed, what lava is made from and what makes volcanoes erupt.

In Art, we created some realistic models of volcanoes in groups.

Our school choir visited the Salvation Army to perform a variety of hymns and carols to help bring a smile to some people's faces and brighten their day. They also performed some Christmas carols to a large audience at St Paul's Church.

Our Christmas assembly was a big success! We acted out the Nativity story to a packed audience and had lots of fun practicing.

The Key Stage 2 Christmas party was such great fun! Throughout the morning, we did a Christmas quiz, danced and had lots of Christmas crafts to keep us entertained. In the afternoon, we played lots of party games and had a tea party before the disco started! It was great day for all!
