

Class 4

Summer Term

We had a lovely time on our class trip to Lindisfarne! We completed an interesting treasure trail, following clues and finding out all about the history of the island.

Our trail took us to St. Mary's Church where we found out about the statue of St. Cuthbert and the Viking attacks Holy Island has suffered throughout the ages.

In Science, we found out about the wonders of the human body and how our internal organs work. It was very interesting finding out how our bodies cope with the challenge of everyday life!

In Literacy, we worked hard to improve our descriptive writing and wrote some imaginative diary entries about life and on a desert island. We had fun using our imaginations and wondering about life in the freezer!

We created spreadsheets in our Computing lessons and found out how enter data and organise information clearly. Using formulae, we carried out calculations and used tools to carry out some useful sorting tasks.
