

Life in Class 3

Summer Term 2021

What a busy Summer Term we have had! Our topics were, 'Let's Go on Safari' and 'Oh, I do like to be beside the seaside'.

In our English learning we found out lots of exciting facts about African animals and wrote our own interesting fact files about them.

We were delighted to have a special visitor in our class – Sunny the Meerkat. He told us all about his adventures then we wrote a postcard back to his parents to tell them all about the adventures he had had at St. Joseph's.

We have been learning about Measuring in Maths – telling the time, measuring length, mass, capacity and temperature.

We enjoyed finding out about Plants in Science and we carried out investigations growing cress and growing beans in plastic bags.

In Geography, we have learnt lots about Kenya and we even learnt some key words in Swahili from Miss Jones. We found out about the Maasai culture and made our own Maasai inspired jewellery.

We have used nature to help inspire our Art work and we have developed our sketching skills. We made our own leaf printing tiles and learnt about weaving.

We celebrated 'Happy Shoe Day' during Walk to School Week and came in shoes that made us feel happy.

On Earth Day we learnt about 'Restoring Our Earth'. We talked about our Carbon Footprint and how we can reduce this. We also made bird feeders for our gardens.

We have enjoyed Yoga sessions this term with Rachel. She has taught us some breathing techniques and lots of poses to help improve our strength and balance.

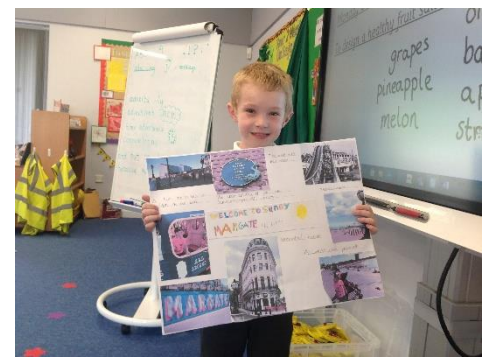

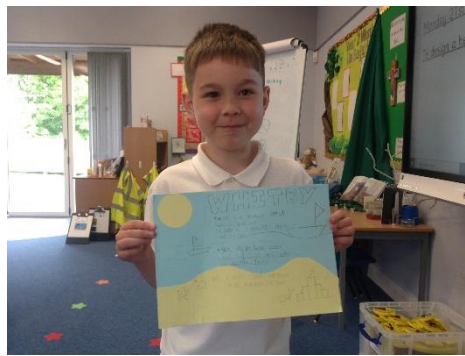

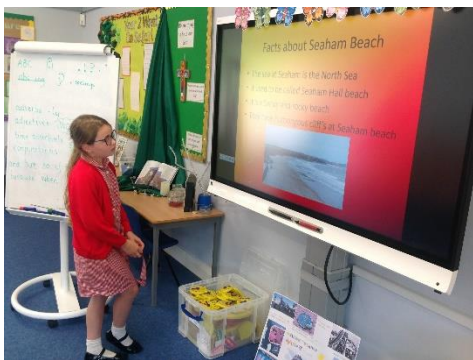

We have become confident using MS Word for Word Processing skills and also MS PowerPoint to create slideshows.

We showed super Tennis skills during PE sessions.

For homework we researched a chosen Seaside Town and then presented our findings to the rest of the class.

We found out about where some of our food comes from before tasting some different fruit. We chose our favourite fruits and then designed a fruit salad. Afterwards we enjoyed making our fruit salad but we definitely enjoyed eating it even more!

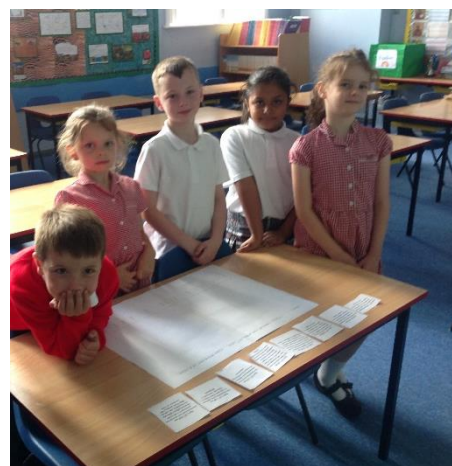

What a great time we had on our Sports Day!

We have been looking at different sculptures and have started to create our own. We will be making more sculptures that could be found at the seaside.

We have been learning about The Titanic disaster. We have used primary and secondary sources to find information and gather evidence. We sequenced events chronologically and talked about the main events. We were able to talk about the causes and consequences of different events.

What a Summer Term of fun we have had!
